

# CLAR8TY wants to reward you for hosting a **Private Tasting Reception (PTR)**

Having a private tasting reception (PTR) is a great way to share Calibr8 with friends, family and associates. It's a FUN social event that can be an evening of relaxation and catching up with friends, or a casual Sunday afternoon get-together, or a lunch hour tasting with co-workers.

A PTR can be even more successful when you work as a team. We encourage you to reach out to your PERSONALLY ENROLLED Preferred Customers and Brand Promoters to ask if you can help them host a tasting for their friends.

When you help your Preferred Customer host an event, you'll be able to share Calibr8 with more people and you'll also have the opportunity to show your Preferred Customer how they can earn free product by becoming a Brand Promoter and participate in the Free With Three Program.

And when you help your Brand Promoters host an event, you can practice edification, show them duplication and much more.

We value the time and effort involved in hosting a PTR.  
As a thank you, Clar8ty would like to send the host  
a FREE QChip when you have at least 3 friends together  
for a tasting of Calibr8.

**FREE**

## **TO QUALIFY:**

1. Host a PTR and share Calibr8 with at least 3 friends (no household members or existing members of Clar8ty).
2. Use the invitation script provided on the following page along with the information at [www.clar8tycommunity.com](http://www.clar8tycommunity.com) to help with your tasting.
3. Email [cs@clar8ty.com](mailto:cs@clar8ty.com) a picture of the event with you and your guests enjoying Calibr8. The product and/or brochure must be clearly visible. Please include the date and time of your event.

**CLAR8TY**  
PURE. POTENTIAL.

# PTR INVITE SCRIPT

*"I've been taking a Nutritional Powder Drink Mix called Calibr8. [offer personal testimonial] It's a Vegan, Non GMO, Gluten Free, nutritional drink with Nothing Artificial in it and it tastes great!*

*It's designed to unlock your body's OWN natural primary antioxidant production at YOUR gene level. We call it "Switching on the Genes".*

*There's a lot to share with you about Calibr8. Would you like to get together and have a tasting party?"*
